

Manufacturer & Supplier Partner Contacts

Learn about wood products, ask performance and supply questions, and gain some practical knowledge. Connect with a WoodWorks Partner to scout products for your next project.

WoodWorks is supported by these businesses through our Partner Program. They represent a wide range of mass timber and wood-frame building products, and it is through their support that we're able to offer free project assistance to developers and design/construction teams across the country.

BOARD PARTNERS

Boise Cascade

Boise Cascade

As a North American producer of engineered wood products, panels, and lumber, Boise Cascade helps customers across the US build strong and environmentally-friendly structures. Boise's wholesale distribution business delivers a broad mix of materials, ranging from the company's own wood products to metal, cement, decking, and more.

To learn more about products such as glue-laminated timber (glulam) beams and I-joists, visit BC.com or contact DarrellChrapko@bc.com or JeffBryce@bc.com.

Georgia-Pacific

Georgia-Pacific

Georgia-Pacific is known for manufacturing a wide range of products used throughout residential and commercial construction. From sub-floors and exterior sheathing to drywall for walls and ceilings, to roofs and firedoors, there's a good chance GP supplies what you need.

To learn more about products such as DryGuard, ForceField Air & Water Barrier System, and Thermostat Radiant Barrier, visit BuildGP.com or contact Matthew.Broome@gapac.com.

LP Building Solutions

For more than 40 years, LP has been developing innovative products that support the changing needs of the building industry. The company continues to improve existing products, while creating advanced new offerings with superior strength, durability and quality. LP is a leading manufacturer of engineered wood building solutions — from subfloor to roofline.

To learn more about products such as LP SmartSide and Trim, and LP SolidStart (LVL, I-joists and rim boards), visit LPcorp.com or contact Sharon.Roscher@LPcorp.com.

West Fraser

West Fraser is a diversified wood products company with more than 60 facilities in North America and Europe. From responsibly sourced and sustainably managed forest resources, West Fraser produces lumber, OSB, LVL, MDF, plywood, particleboard and other products.

To learn more about products such as Durastrand point SIX Sub-Floor, Solarbord Radiant Barrier Roof Sheathing, TallWall Wall Sheathing, and Windstorm Wall Sheathing, visit WestFraser.com or contact Geoff.Angle@westfraser.com.

Weyerhaeuser

Weyerhaeuser

Weyerhaeuser produces all of the wood products and innovative solutions needed to build quality structures. The company prides itself on its expertise and innovation, and the ability to help customers solve problems while improving both performance and profitability.

To learn more about products such as TJI Joists, Parallam PSL, TimberStrand LSL, Microllam LVL, OSB, and panels, visit Weyerhaeuser.com or contact Wendy.Minichiello@weyerhaeuser.com.

WoodWorksInnovationNetwork.org (WIN) is an online community that includes a searchable map of innovative wood buildings with project photos and descriptions—plus, an easy way to find and directly connect with members of the project teams, as well as the material suppliers.

MARKET DEVELOPMENT PARTNERS

Binderholz Mass Timber

To learn more about cross-laminated timber (CLT), glulam, solid structural wood, solid wood panels, and lumber, visit Binderholz.com or contact Simon.Siegert@binderholz.com.

DR Johnson

To learn more about CLT panels and glulam beams, visit DRJwoodinnovations.com or contact ShawnW@drjohnson.com.

Freres Lumber

To learn more about Mass Ply panels, Mass Ply Lam beams and columns, and veneers, visit FreresLumber.com or contact ABasl@frereslumber.com.

Global IFS

To learn how a reconfigurable underfloor HVAC system, modular power with WiFi, and modular floor finishes integrate with access flooring, visit GlobalIFS.com or contact CErvin@globalifs.com.

From wood to wonders.

Hasslacher Group

To learn more about CLT, glue laminated beams and timber, or solid timber ceilings, visit Hasslacher.com or contact Michele.Shi@hasslacher.com.

Mercer

To learn more about CLT, visit mercerint.com or contact todd.beyreuther@mercerint.com.

Rosboro

To learn more about glue-laminated timber products, visit Rosboro.com or contact Jeff.Morrison@rosboro.com.

Sansin

To learn more about industrial and factory finishes and coatings, visit Sansin.com or contact CML@sansin.com.

Smartlam

To learn more about SmartLam's hands-on experience with CLT and Glulam building projects visit SmartLam.com or contact Cory.Scrivner@smartlam.com.

Sterling Structural

To learn more about CLT, visit SterlingStructural.com or contact Michaela.Harms@sterlingsolutions.com

StructureCraft

To learn more about mass timber products like CLT, dowel-laminated timber (DLT) and panels, visit StructureCraft.com or contact GMEpp@structurecraft.com.

Vaagen Timbers

To learn more about CLT panels, and glulam beams and panels, visit VaagenTimbers.com or contact SBishop@vaagentimbers.com.

INDUSTRY ADVANTAGE PARTNERS
