

Manufacturer and Supplier PARTNER CONTACTS 2023

Learn about wood products, ask performance and supply questions, and connect with a manufacturer or supplier to scout material for your next project.

Browse our manufacturer and supplier directory below and connect with with companies on the [WoodWorksInnovationNetwork.org](https://www.woodworksinnovationnetwork.org) (WIN). A program of WoodWorks, WIN is a user-driven online community that showcases mass timber and innovative light-frame wood projects—and connects developers, design and construction teams, and suppliers.

As a non-profit, WoodWorks is supported by these manufacturers and suppliers through our Partner Program. They represent all facets of the industry, and it is through their support that WoodWorks offers technical resources, educational programming, and free project assistance to teams building with wood.
